Aug/2023 – Present

PROJECTS

PORFOLIO WEBSITE

shouryaastic.vercel.app

- Built portfolio website using ReactJS and CSS for showcasing projects and skills.
- Utilized React's component-based architecture for dynamic adaptability.
- Enhanced aesthetics with pre-designed components and saving time.
- Implemented efficient data management for seamless navigation and interaction.

REACT DASHBOARD PROJECT

[React-Dashboard-Live](#)

- Successfully developed a React dashboard project using Sass/SCSS within a tight deadline of 3 days, demonstrating efficient time management and delivery of results.
- Leveraged the Chart.js library to implement data visualization functionalities, enabling dynamic and visually appealing charts and graphs for enhanced data representation.
- Deployed the project on Vercel, providing a live demo of the dashboard and login functionality, emphasizing the ability to showcase projects online and facilitate easy access for stakeholders and potential employers.

DATA ORGANISING USING AI IN A WEB APP

- Building a Full Stack web app with Next.js (frontend) and Node.js, Express.js, MongoDB (backend) for a seamless user experience.
- Integrating OpenAI's ChatGPT API to enhance user interactions and organise data.
